### Abstract

We are seeing education institutions adapting these developments into their systems And relying on group resources and mechanisms to improve the student life. The use of social media in education provides students with the ability to get more useful information, to connect with learning groups and other educational systems that make education convenient.

**Key Words:Online Teaching Threat, opportunity.**

### Introduction:

Social network tools afford students and institutions with multiple opportunities to improve learning methods. Through these networks, you can incorporate social media plugins that enable sharing and interaction. Students can benefit from online tutorials and resources that are shared through social networks and LMS's. There is valuable knowledge to be gained through social media such as analytics and insights on various topics or issues for study purposes.

Connecting with experts on topics via social media

The great thing about using social media is that you soon learn who the experts are in particular fields and subjects. When you start following these experts you learn more and gain useful content from them, this empowers you to produce great results. Social media has the ability to broaden your perspective on various subjects and gives illuminating, instant content that is new. You have the opportunity of engaging experts to get answers on topics that you may need help in. Institutions communicate with students via YouTube and Facebook

Learning colleges have the ability to connect with students through social media networks such as Facebook, Google Plus groups, and YouTube. These channels can be used to communicate campus news, make announcements and provide students with useful information. This builds engagement between the College and students which help tackle many student issues through the group interactions.

### It helps in Research process

Social media offers audience and subject monitoring tools that are useful and it is one of the best platforms to extract data. You can find out how the majority people feel about a particular topic or how experts perceive and advice on specific issues.

### Positive effects of Social Media:
